

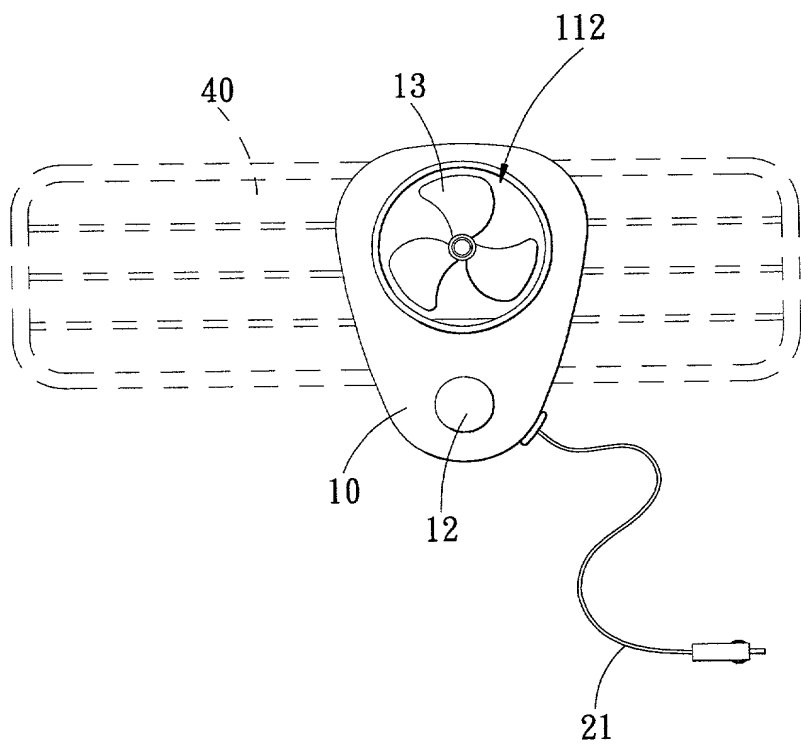

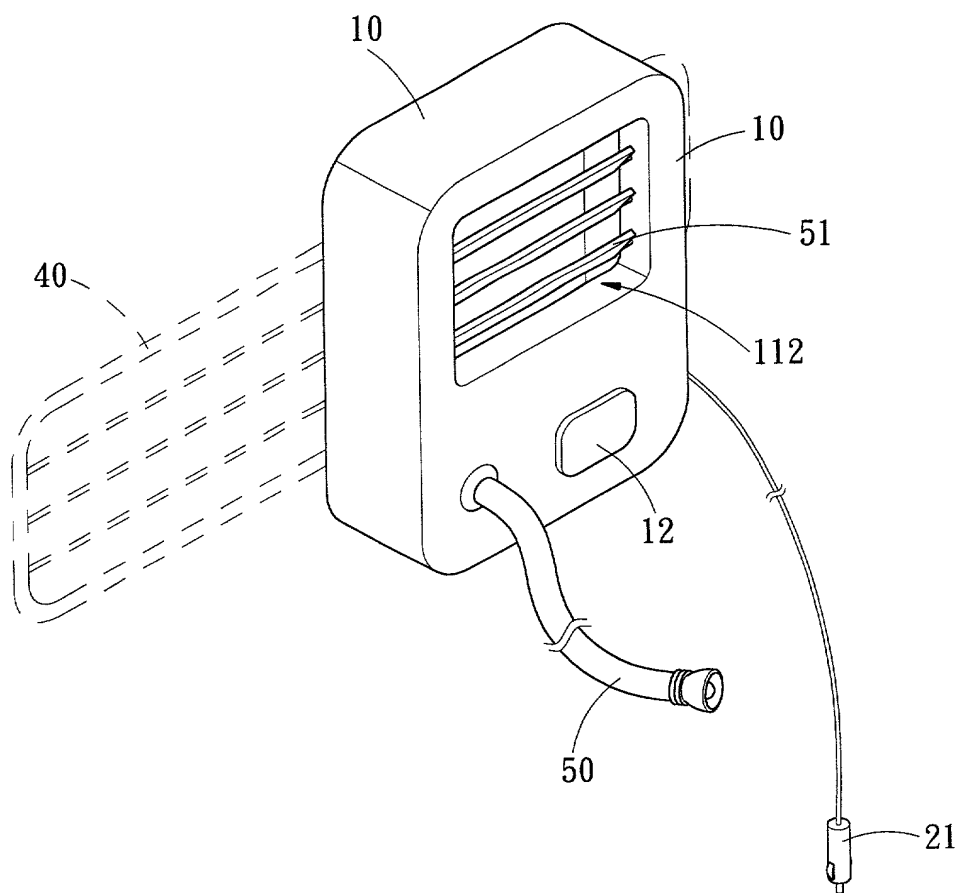

Figure 1 is a schematic diagram of a medical device 10 in a closed state. The device includes a main body 11 and a top cap 12. A handle 13 is attached to the side of the main body 11, featuring a trigger 30. A dashed line 22 indicates a recessed area on the front of the main body 11. A dashed outline 40 shows the device's shape when the handle 13 is moved to an open position, revealing the internal components.
